What is a User Group?

1

Share best practices

2

Meet and network
with peers

3

Help guide the
future of the
Pavement ME
software

4

Get involved, serve
on a TAG, TRT, User
Group Vice
President or as a
Task Force member.

TECHNOLOGIES

ALLIANCE

Creating more IT solutions for DOTs

The Identification, vetting, selection and management of alliance relationships that provide existing technology products and services which contribute to AASHTOWare's overall program goal of supporting transportation agencies as they perform their mission.

ESTABLISHED

AASHTOWARE BRINGS VALUE TO OUR MEMBERS

Why form an Alliance?

FUNCTIONALITY

- To FILL a functional gap
- To ADD functionality to an existing product

MODERNIZATION

- As products approach sunseting
- When it becomes cost-prohibitive to modernize

MEET A NEW BUSINESS NEED

- Add value to our members

AASHTOWARE

ALLIANCE TYPES

DATA

Provide data access to bring together AASHTOWare and non-AASHTOWare subsystems into an enterprise system and ensure subsystems function together.

PRODUCT

Provide products and services that complement AASHTOWare solution(s) and integrate and harmonize with the solutions.

STRATEGIC

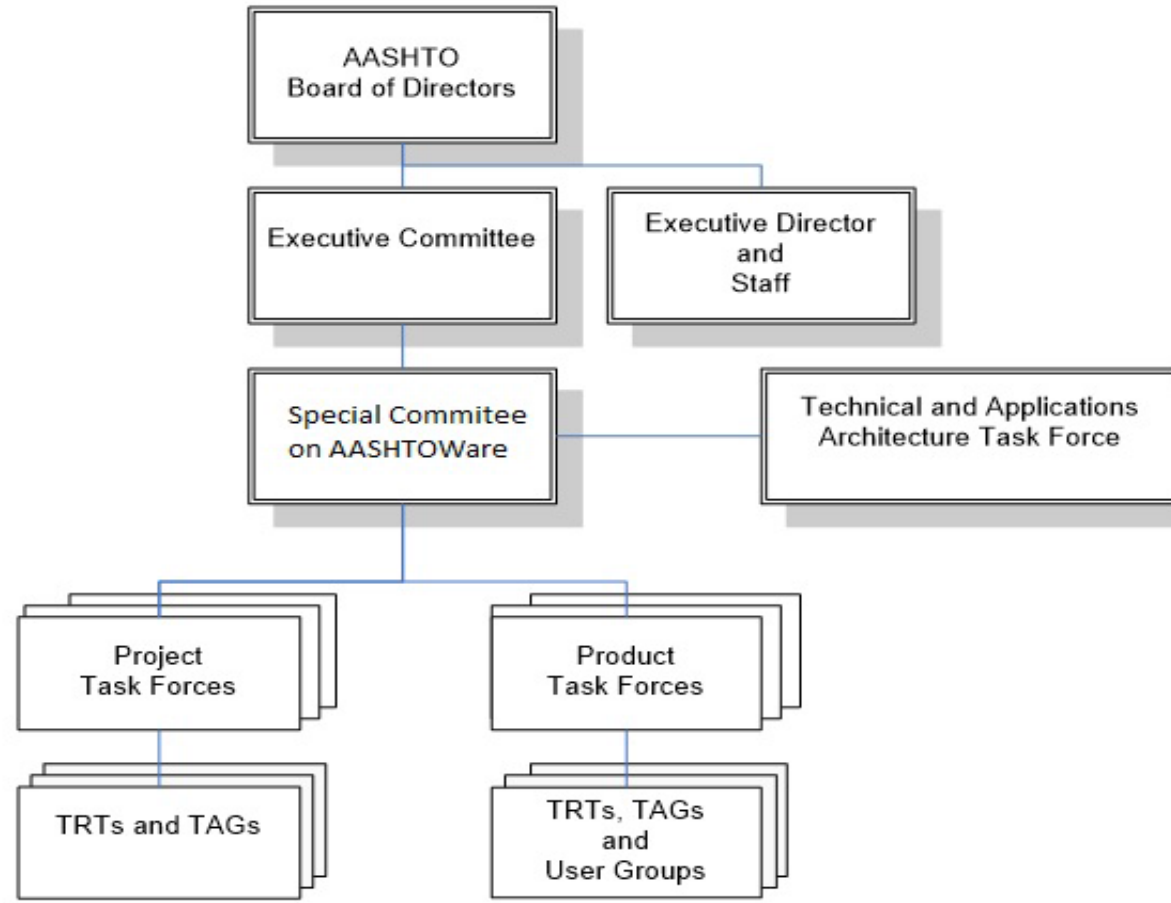

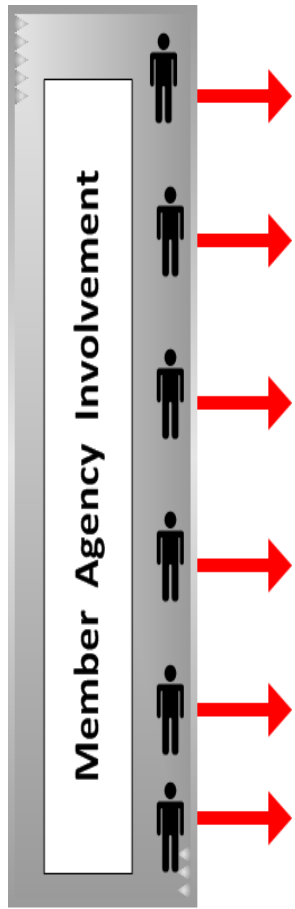

Serve in a broader and deeper relationship, with strong organizational commitment and significant business impact.

Task Force Structure Changes

- BrDR and BrM are now two fully independent task forces
- Co-locating task force meetings
- Allows for more members to get involved

AASHTOWare Program Management

Why Use AASHTOWare

- Incorporates “best practices”
- Users share solutions and costs
- License fees cover overall expenses ensure software products are kept current with technology, AASHTO specifications and functional requirements
- Each product is self-supporting
- Non-profit operation
- Management and oversight by agency (DOT) personnel
- AASHTO staff project management/assistance

Cooperative Development

Member Agencies
pitch in (funding
& Time) resources

One Solution that
fits the needs of
most

Task Force Member Appointment Process

- Conduct broad solicitation of interest to member community
- Candidate resumes reviewed by Task Force Chair, SCOA Liaison, and AASHTO Project Manager
- Interviews conducted by same to find subject matter expertise needed to compliment the current Task Force membership
- Candidate recommendation and all resumes received submitted to SCOA for approval

Members allowed to serve two, three-year terms. Special terms may be extended at the direction of the SCOA

AASHTOWare Service Units

- Fixed priced units
- Never expire
- Can be used for training, configuration, or additional support

Software Renewal Process

- License by fiscal year
 - July 1st – June 30th
 - New catalog is released each May
- States Agencies can now order online

User Group Leadership – Volunteers needed

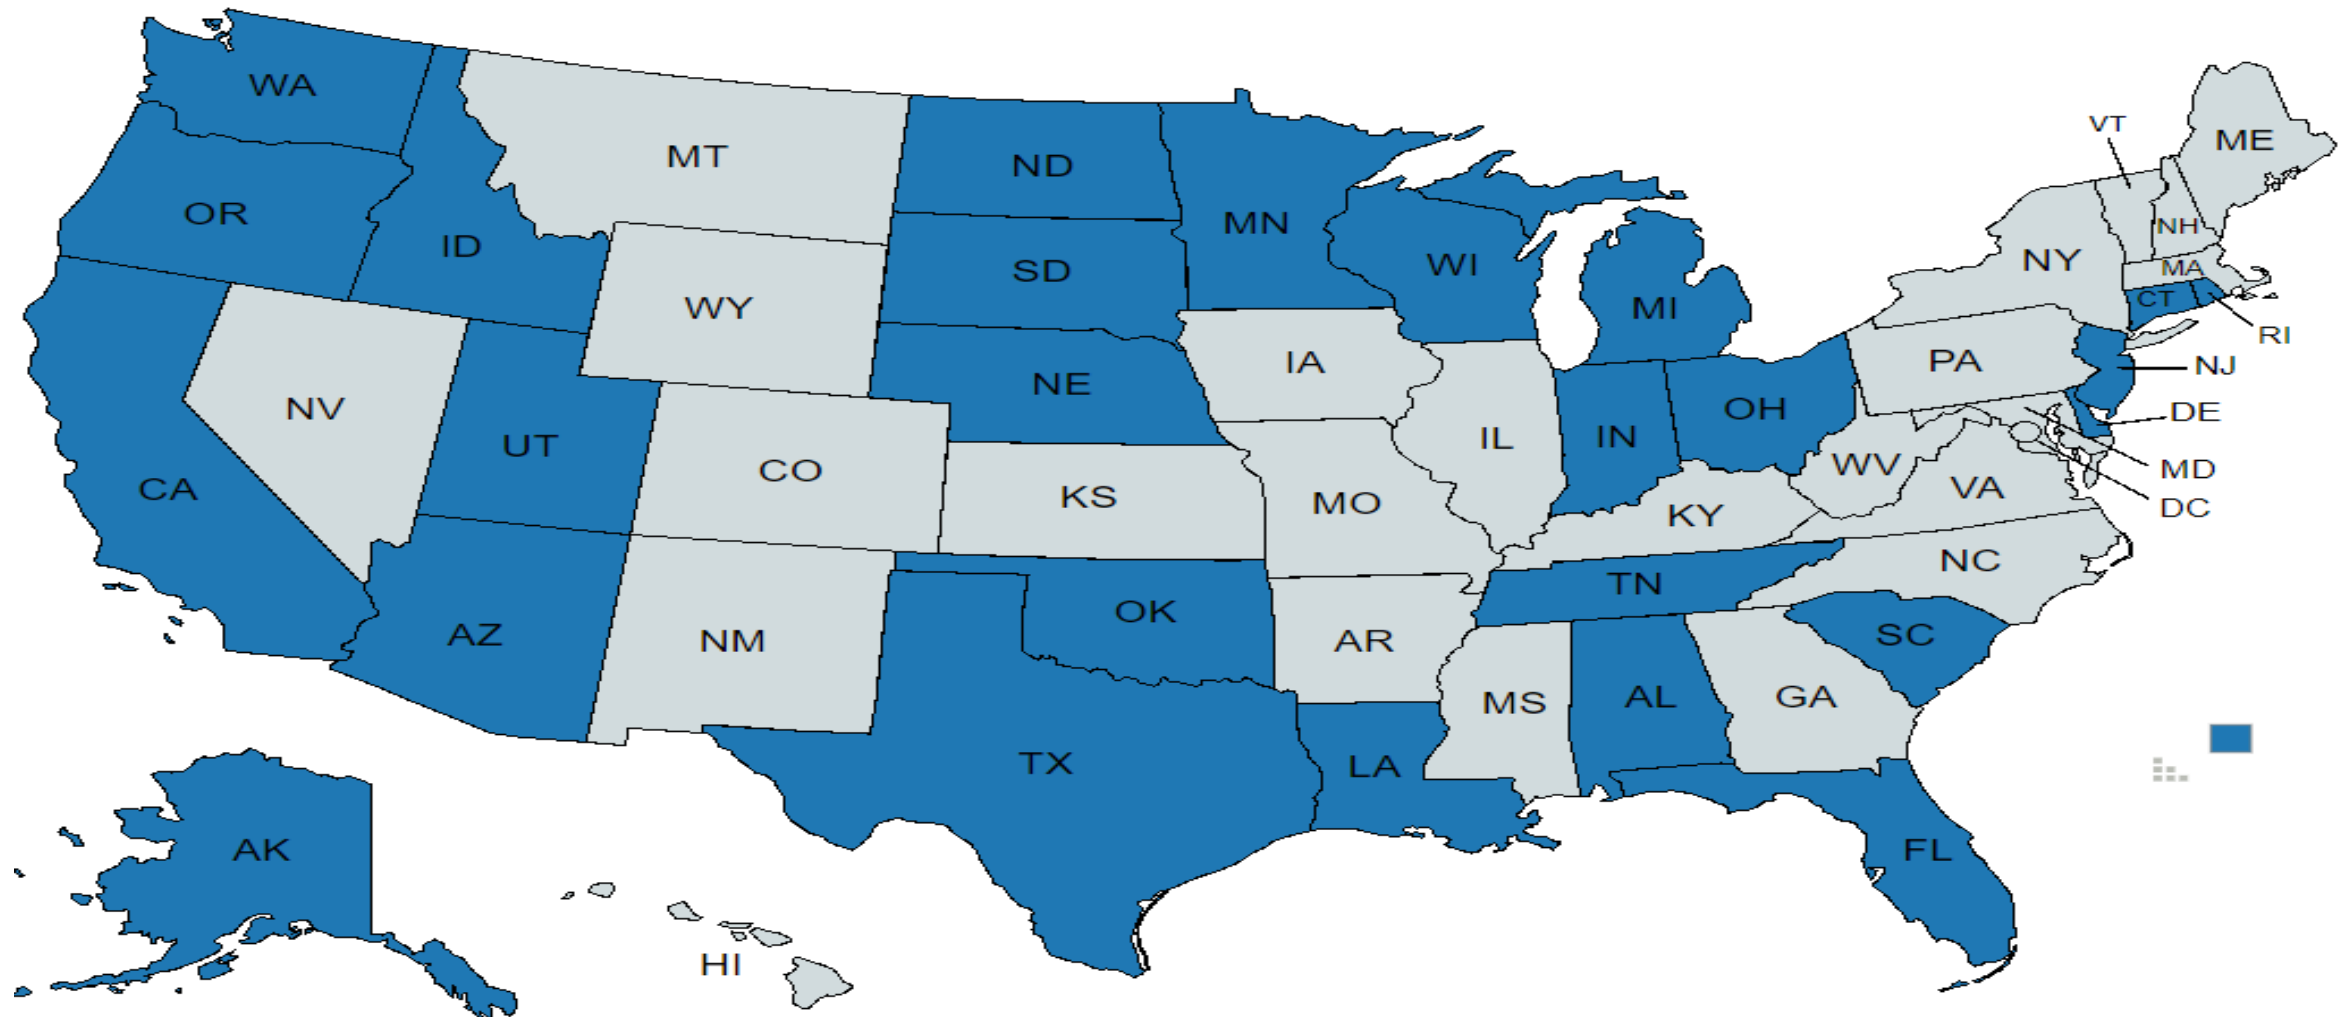

User Group Leadership

- Agenda Development Assistance
- Meeting Location selection

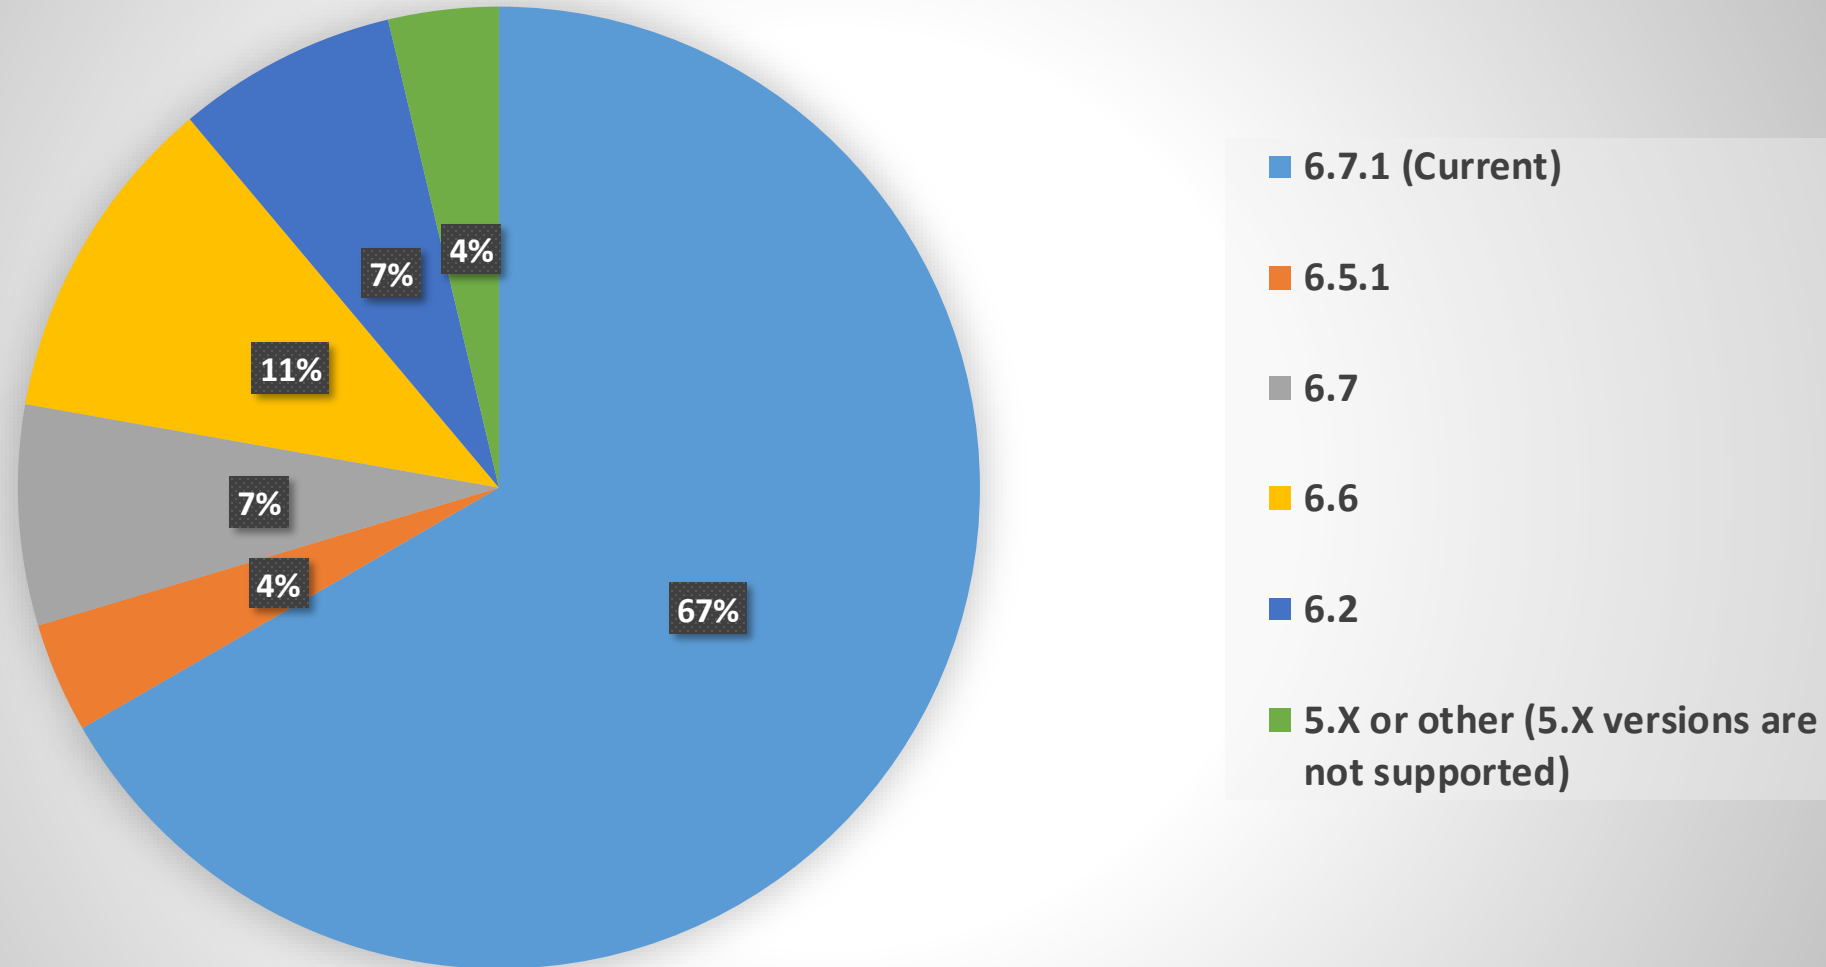

AASHTO handles all of the contracts and meeting logistics

Task Force will be responsible for the budget
